

## RESOLUTION NO. U.A. 2005-09

**A RESOLUTION RESCINDING AND RESTATING CAPITAL IMPROVEMENT CHARGES AND GUARANTEED REVENUE CHARGES FOR THE SERVICES AND FACILITIES FURNISHED BY THE ELECTRIC SYSTEM, WATER SYSTEM, AND THE WASTEWATER SYSTEM OF THE FORT PIERCE UTILITIES AUTHORITY, FORT PIERCE, FLORIDA, IN ACCORDANCE WITH THE CHARTER OF THE CITY OF FORT PIERCE, FLORIDA, ARTICLE XII, SUPERSEDING AND RESCINDING THOSE CHARGES FOR THE SERVICES AND FACILITIES FURNISHED BY THE WATER SYSTEM AND THE WASTEWATER SYSTEM SET FORTH IN RESOLUTION NO. U.A. 2005-05, OF THE FORT PIERCE UTILITIES AUTHORITY, AND PROVIDING FOR AN EFFECTIVE DATE HEREOF.**

**WHEREAS**, the Fort Pierce Utilities Authority was created and established by Ordinance No. F-399 enacted by the City Commission of the City of Fort Pierce, Florida, and approved by a majority vote of the qualified electors of the City of Fort Pierce, Florida, in a referendum election held in said City on May 30, 1972; and

**WHEREAS**, Section 8 (6) of said Ordinance No. F-399 grants to said Fort Pierce Utilities Authority the power and duty to fix charges.

**SECTION I. CAPITAL IMPROVEMENT CHARGES:** Effective, October 19, 2005, the Fort Pierce Utilities Authority, Fort Pierce, Florida, (the "Authority") shall impose a Capital Improvement Charge on any and all new electric, water, and wastewater customers connecting to the electric, water, and/or wastewater system. The Capital Improvement Charge is based on the cost of expanding the electric transmission system, substations and distribution system, water supply, and wastewater treatment facilities, and shall be applicable to all new electric, water, and wastewater service within the territory served by the Authority. The schedule of Capital Improvement Charges imposed herein shall be subject to revision from time to time as may be necessary. The obligation for payment of water and/or wastewater charges shall be at the time the final Water/Wastewater Supply Agreement or a County Developer's Agreement is submitted to the Authority for execution. In the case of small projects where a County Developer's Agreement or the Authority's Water/Wastewater Supply Agreement does not exist, the Capital Improvement Charge payment would be paid at the time the Authority signs the Department of Environmental Protection (DEP) Water/Wastewater Construction Permit. The obligation for payment of electric charges shall occur prior to the Authority scheduling construction. Application for service will not be accepted without a valid building permit. If the building permit expires, the application for service will be canceled. Applicant will need to pay Capital Improvement Charges one time only for any given location, unless equivalent residential connections (ERC) are added.

**A. Basis for Determination of Capital Improvement Charges:** The Capital Improvement Charges set forth in Section I.B. and I.C., respectively, for electric, water, and wastewater service shall be determined on the basis of an ERC. It shall be assumed that an

ERC for electric service shall be 4kw, an ERC for water service shall be 300 gallons per day, and an ERC for wastewater service shall be 240 gallons per day. For each new non single-family residential, general service, commercial, or industrial customer, the Capital Improvement Charge shall be based on the estimated electric demand, water usage, and wastewater flow (i.e., service level) required by such customer relative to the single-family residential customer. The estimate of the electric demand for all new service connections will be calculated by the electric engineering department based on the design drawings and related documents included in the application for building construction permit. The estimate of the water and/or wastewater service level required for non single-family residential connections is set forth in the Schedule of Daily Rate Gallonage for Various Occupancies (Exhibit A) which is a part of this Resolution. The service level based on the Schedule of Daily Gallonage shall be converted to ERC's and the Capital Improvement Charge determined accordingly. Any use or customer type not specifically referred to in such schedule shall be charged a Capital Improvement Charge based on estimated water consumption as determined by the Authority.

**B. Water System Capital Improvement Charge:** The water system Capital Improvement Charge, effective September 7, 2004, is \$ 1,605 per ERC and is due at the time application is made for water service.

**C. Wastewater System Capital Improvement Charge:** The wastewater system Capital Improvement Charge, effective September 7, 2004, is \$1,447 per ERC and is due at the time application is made for wastewater service.

**D. Electric System Capital Improvement Charge:** The electric system Capital Improvement Charge, effective June 1, 2005, shall be \$964 per ERC and shall be due at the time application is made for service.

**E. Exemptions:** Locations with current or previously existing electric, water, and/or wastewater service are not subject to Capital Improvement Charges; however, if additional equivalent single-family residential unit connections (ERC's) are added to the location, Capital Improvement Charges will be imposed for those additional connections.

**SECTION II.** The monies from the Capital Improvement Charges, provided for in Section I of this Resolution, shall be deposited in the Utilities Revenue Fund and shall be used for capital projects and improvements or retiring outstanding debt service.

**SECTION III. GUARANTEED REVENUE CHARGES:** Effective September 7, 2004, the Fort Pierce Utilities Authority, Fort Pierce, Florida, imposed a monthly Guaranteed Revenue Charge on any person desiring to receive a commitment to reserve water and/or wastewater capacity for future development from the Authority. A charge for reserving water and/or wastewater system capacity shall be determined on the basis of an equivalent residential connection as defined in Section I.A. of this Resolution and shall be included as part of a Water/Wastewater Supply Agreement between the party reserving the capacity and the Authority.

These charges shall apply to developments which require the Authority to reserve capacity for Florida Department of Environmental Protection (FDEP) permitting purposes. Upon signing the County's Developer's Agreement or the Authority's Water/Wastewater Supply Agreement, the developer shall submit to the Authority a signed and notarized letter to FDEP (Exhibit B) stating that in the event the developer does not pay the charges as billed within 30 days, the developer authorizes FDEP to cancel the permitting for all remaining units. The developer has one (1) year from the date of the Water/Wastewater Supply Agreement to complete the infrastructure (the Authority Final Inspection and Acceptance) and will be billed at the end of that year, and then annually thereafter, for the preceding 12 months of Guaranteed Revenue Charges on units

not connected to the Authority's water and/or wastewater system at the end of each 12-month period. Payment will be due within 30 days.

**A. Water System Guaranteed Revenue Charge:** The water system Guaranteed Revenue Charge, effective September 7, 2004, is \$80.04 per year per ERC. The annual charge shall be billed at the end of the first year after signing the Water/Wastewater Supply Agreement, and then annually thereafter, for any units not connected to the Authority's water system. Payment is due within 30 days.

**B. Wastewater System Guaranteed Revenue Charge:** The wastewater system Guaranteed Revenue Charge, effective September 7, 2004, is \$ 105.60 per year per ERC. The annual charge shall be billed at the end of the first year, and then annually thereafter, for any units not connected to the Authority's wastewater system. Payment is due within 30 days.

**C. Exemptions:** Municipal Services Benefit Unit (MSBU) projects and Community Development Block Grant projects will not be subject to Guaranteed Revenue Charges.

**SECTION IV.** The General Government of the City of Fort Pierce, Florida, shall be exempt from Capital Improvement Charges and Guaranteed Revenue Charges.

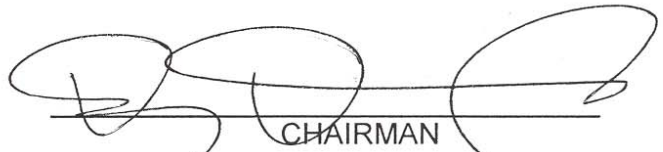

**SECTION V.** Upon adoption of the Resolution, and effective date thereof, the charges hereinabove set forth in Sections I and III of this Resolution shall be fixed and established as an Order of the Fort Pierce Utilities Authority and shall supersede and rescind those charges set forth in Resolution 2005-05, Sections I. and IV.

**SECTION VI.** This resolution shall be and become effective October 19, 2005.

This the 16 day of August, A.D. 2004.

Attorney for Fort Pierce Utilities Authority

Schedule of Daily Rated Gallonage for Various Occupancies [1]

gpd = gallons per day
gpcd = gallons per capita per day

Line No.	Types of Building	Usage
1	Apartments/Condominiums	210 gpd *
2	Bars and Cocktail Lounges	30 gpd / seat
3	Boarding Schools (Student and Staff)	75 gpcd/person
4	Bowling Alleys	100 gpd / lane
5	Country Clubs	25 gpcd / member
6	Day Schools (Students and Staff)	10 gpcd/person
7	Drive-in Theaters	5 gpd / car space
8	Factories (with Showers)	30 gpcd
9	Factories (without Showers)	10 gpd / 100 sq. ft.
10	Hospitals (with Laundry)	250 gpd / bed
11	Hospitals (without Laundry)	200 gpd / bed
12	Hotels and Motels (no Restaurants or Laundry) **	150 gpd / room or unit
13	Laundromats	225 gpd / washer
14	Mobile Home Parks	210 gpd / trailer
15	Movie Theaters, Auditoriums, Churches	3 gpd / seat
16	Nursing Homes	100 gpd / bed
17	Office Buildings	10 gpd / 100 sq. ft.
18	Public Institutions (Other than those listed herein)	75 gpcd
19	Restaurants	30 gpd / seat
	Single-family Residences:	
	Water	
20	5/8" x 3/4" Meter	300 gpd
21	1" Meter	420 gpd
22	1 1/2" Meter	540 gpd
23	Sewer	240 gpd
24	Townhouse Residences	210 gpd
25	Stadiums, Frontons, Ballparks, etc.	3 gpd per seat
26	Retail Stores (without Kitchen Wastes)	5 gpd / 100 sq. ft.
27	Speculative Buildings	30 gpd plus
		10 gpd / 100 sq. ft.
28	Warehouses	20 gpd plus
		10 gpd / 1000 sq. ft.

[1] Based generally upon standards established by the Dept. of Health and Rehabilitative Services, Chapter 10D-6, Florida Administrative Code. Factors for single family residential, multi-family, and mobile homes were adjusted to reflect historical usage experienced by the Authority's customers.

[\*] Excludes multi-family units on South Beach where ERC values are established by contract.

[\*\*] Hotels and motels with other facilities to be qualified as per schedule (that is, with laundry add 50 gpd, with restaurant add 30 gpd per seat).

West Palm Beach, FL 33406

**Re: FDEP Water Permit #** \_\_\_\_\_

**FDEP Wastewater Permit #** \_\_\_\_\_

To Whom It May Concern:

Fort Pierce Utilities Authority (FPUA) signed the applications for construction for water and/or wastewater permits for my project:

\_\_\_\_\_

for **water**, on the date: \_\_\_\_\_

for **wastewater**, on the date:

These permits obligate FPUA to reserve system capacity for this project.

If my project does not have the water and/or wastewater facilities constructed by the date \_\_\_\_\_, then I agree that FPUA may withdraw its capacity reservations for my project, or the sections or phases of the project which have not been constructed.

Furthermore, I agree that FPUA may request Florida Department of Environmental Protection to cancel or void permits issued by your agency for water/wastewater facilities not constructed.
