

Be Safe When Using Natural Gas

Important Safety Rules for Natural Gas

- If you smell gas, do not light matches, or operate telephones, flashlights, or switches.
- Follow manufacturer's instructions with all gas appliances.
- Call FPUA for service if your gas flame is not blue.
- Keep flammables away from gas appliances.
- Keep a fire extinguisher nearby.
- Never use a natural gas stove as a space heater.
- Use a licensed, qualified professional for gas appliance installation and service.
- Keep chimney flues and vents for appliances clean and in good repair.
- Know how to shut appliances off in an emergency.
